News Update - Summer 2018 - Committee

Hope you all survived the Christmas New Year celebrations and are ready to bowl again tomorrow morning 9 January. This Update is focused on the Club's embarkation into the digital world and the continued preservation of its very proud history.

I am releasing to you, the Committee, the first version of our website.

You will find it at www.adelaideovalbowlingclub.com.au

The navigation of the site may be a little strange for some of you but its aim is to keep it simple and consistent. By all means ring and let me know if you are having trouble finding access to any of the historical information, photos and other titbits.

Along the top of each page are the menus for the site. The last one is "Contact Us". It would be very helpful if you could use the enquiry form to make a short note of your findings, one or two sentences. The "admin" email facility comes straight to me and your comments will not be broadcast other than collectively to the committee.

The Members dropdown menu shows , with others, "Club Files". This avenue takes you to Dropbox. When I send you the request to share files and you accept, and after installing the Dropbox app, do this first, you will have entry to all the folders and files of the Club.

Lastly, you are aware that there are a number of members who will not use the website for one reason or another. I have kept this in mind as we also need to be able to convert quickly information, like this Update, to hard copy and mailing.
